

The J&M Model V23 Vibratory Driver / Extractor

Engineered for maximum versatility and maximum ownership utilization.

- Largest plastic sheet pile driver available. The Model 23 is designed to handle the largest and longest lightweight sheeting applications
- Light weight unit allows operation from a variety of machines including hydraulic cranes, excavators, or backhoes
- Super-tough forged gears provide an unmatched 12 year useful life
- 13-ton extraction capability allows quick and easy realignment of misplaced or crooked sheets
- Supplied with environment friendly non-toxic biodegradable hydraulic oil
- Quiet operation makes the Model 23 ideal for congested urban jobsites
- Bolt-on clamps are quickly removable to accept alternate clamps
- Drives and extracts H-piles, sheet piles, trench plates, timber piles, pipe piles, guardrail posts, and much more
- Made in the USA by the industries most technologically innovative manufacturer of hydraulic vibratory pile drivers / extractors since 1974

	Model 23-51	Model 23-108
Eccentric moment	230 inch/lbs	230 inch/lbs
Frequency	1600 vpm	2,250 vpm
Centrifugal force	8.4 tons	16.5 tons
Amplitude (free hanging)	0.58 in	0.58 in
Max line pull for extracting	13 tons	13 tons
Weight (no clamps or hoses)	1,440 lbs	1,440 lbs
Clamping force	20 tons	20 tons
Height (with clamp)	50 in	50 in
Length	26 in	26 in
Width	15.75 in	15.75
Throat width	10.5 in	10.5 in
Hydraulic hose length	100 ft (30 m)	275 gal (1040 l)
Hydraulic hose weight	400 lbs	400 lbs
POWER UNIT		
Engine	Caterpillar	Caterpillar
Power	51 HP	108 HP
Drive Pressure	2500 psi	4,500 psi
Drive Flow	28 gpm	33 gpm
Weight w/ full fuel & fluids	2,200	3,400 lbs
Dimensions (l x w x h)	68" x 40" x 50"	96" x 45" x 52"
